## **Company Background**

### **WinterScarf.com, LLC**

The fusion of fashion and function is the purpose of WinterScarf.com, LLC. When founder Heidi Skillman created her first 360 Scarf® in 2003, her simple goal was to create winter wear that would keep up with an active lifestyle. There was a need for highly fashionable, highly functional winter accessories and it took Skillman's vision to create the 360 Scarf® and launch WinterScarf.

Skillman patented her 360 Scarf® and soon began selling it at local markets. The demand was immediate and she soon expanded WinterScarf across the country at various craft shows, boutiques and over the Internet. Based upon customer demand, the product line has grown to include matching hats and gloves.

WinterScarf believes in using only the finest quality fabrics and craftsmanship. All products are made with only the warmest, softest, and most stylish fabrics and sewn by home-based clothiers across the United States.

Based in Cumming, Georgia, WinterScarf believes that warmth is a necessity for all people and has formed a partnership with One Warm Coat to provide scarves and coats to people in need.
